We will like to announce you that the Romanian Chemical Engineering Society offers **grants to the young chemical engineers for participation at Romanian International Conference on Chemistry and Chemical Engineering RICCCE 18, Sinaia, 2013**

Active participation of young chemical engineers to the scientific conferences has a major importance for their future career. Taking into consideration those aspects the board of Romanian Chemical Engineering Society decided to offer 6 grants to the young chemical engineers for participation at Section 4 of Romanian International Conference on Chemistry and Chemical Engineering RICCCE 18 (<http://www.riccce18.upb.ro>), Sinaia, 2013. The grant consists in the participation fee for the winners.

Eligible for those grants are young chemical engineers (under 35 years old) members of the Romanian Chemical Engineering Society. The application file must be submitted at mentioned rapid email address. It will contain:

- The abstract of the paper submitted and accepted in the conference (as oral presentation)
- A recommendation from a professor and a short CV (1 page)
- Letter of application (addressed to SICR)

Deadline for submitting an application is 25th of February 2013

Applications will be analyzed by a SICR board and the winners will be announced before 1st of March 2013.

Prof. Tanase DOBRE

President of Romanian Chemical Engineering Society
